SUMMARY

Computer Science graduate with a passion for aesthetics, seeking an opportunity to apply technical skills in creating practical and visually appealing UI designs.

SKILLS

- JavaScript, TypeScript, React (basic knowledge), NodeJS, HTML5, CSS3, SASS
- Python, C++
- MySQL, MongoDB
- Git
- VS Code, Jupyter Notebook
- Microsoft Windows, Linux

PROJECTS

- **WebNotes (2025)**
  - https://kopdejana.github.io/WebNotes
  - https://github.com/kopdejana/WebNotes
  - Implemented using React and localStorage
- **Personal Portfolio (2025)**
  - https://kopdejana.github.io
  - https://github.com/kopdejana/kopdejana.github.io
  - Implemented using HTML5, SASS and JavaScript.
- **Jungle Speed (2023)**
  - https://gitlab.com/matf-bg-ac-rs/course-rs/projects-2023-2024/jungle-speed
  - Software Development course - team project.
  - Designed the UI with another member of the team and implemented my part in QT Creator. Used CSS for more advanced styling.
  - Designed the logo, all the cards, background images and buttons using Inkscape.
  - Implemented functions in C++ to help add and modify elements dynamically.
- **Blood Moon (2023)**
  - https://github.com/kopdejana/matf-rg-blood-moon
  - Computer Graphics course - solo project.
  - Implemented using OpenGL and C++.
  - Successfully found the way to integrate all the required technical elements while keeping the artistic vision, earning 5 extra points.

EDUCATION

- **Bachelor's Degree – Computer Science (2019-2024)**
  - Faculty of Mathematics, University of Belgrade
- 13th Belgrade Grammar School (2015-2019)

LANGUAGES

- Serbian (Native)
- English (Full-professional proficiency)
- French (Elementary level)
